One more Month, of Rallies and Conventions!!

Things have been happening last month, and the Month of May!!

We had 32 that made the Convention in Lafayette!! Some took home money! Door prizes!! We had many that took training, and all said they really enjoyed it!! Then it was on to Chapter J, what a great time we had.

Our rally is on the 7th of May we are expecting to see a lot of the Chapter's Friends from Texas and Louisiana. Remember to get your door prizes in. We are asking for each Chapter Member to bring at least three.

Thank you for your support!! Some have already got them in!!

Did we have fun at the rally prep or what? Stuff the Bags in record time 29 people working together what a team!! Thank you!!

We want to thank all those that are working so hard Joan and Robert for getting Sponsors in Leesville!! And Richard and Susie for working Deridder!! And the entire Chapter for what they are doing for the rally!! We will have a brief Chapter Gathering at Baileys Thursday May 5th at 6:30 PM and do some last minute prep for the Rally. This will free us up for the Rally.

Any questions give me a call.

There will always be changes in the Chapter from time to time please check your email and listen for the calling post for changes.

On another note I was riding east Texas Last week and heard some Wingers on the CB I ran up on them just before Center Texas. And began to chat with them and became their Drag bike come to find out it was Palmer and his wife from Chapter J in Beaumont TX enjoyed the little ride with them they were on the way to Troup to have some work done. But the main thing was we all rode the same and knew how to ride in a group. She commented on how nice it was to ride with safe riders. That is the reason we take classes to be safe and that we are all on the same page when we ride.

Well I know I missed something just call and let me know I am only Human just ask Mary!! LOL

Thanks Again!!

HELLO MUDBUGS,

I recently went down to San Antonio for one week of training and Joan was able to accompany me. This was during Fiesta Week, so San Antonio was booming. I got out of class early at 11AM on Friday and after picking up my certificate, I went up to our room and talked Joan into checking out of the Hotel and heading off to the famous Three Twisted Sisters.

These three roads Hwy 335, 336 and 337 all connect to each other and cover about 150 miles in total length. You go around corners, up and down hills, past lakes, waterfalls, and lots of mountains to look at. The sharpest corner was 10 MPH but most were 20 MPH. I was met by at least 200 bikes traveling on the 3 roads. We passed Kangaroos, giraffes, and impala's and other animals.

After leaving the twisted sisters we went on to Lukenbach, TX and for those that have listened to country radio will remember the song . After passing the 3 or so building in Lukenbach, we went on to Fredericksburg, TX for a German Supper.

Resetting the GPS I was now headed for Home. We found our way on to Hwy 290 for a while almost arriving in Austin, TX then down the road to Hwy 71 which took us down to I-10 about 70 miles west of Houston. By now it was getting dark so we stopped in Columbus, TX for the night. Getting up early the next morning we were able to transverse most of Houston to I-610 and end up on Hwy 59 into Livingston, then on to Leesville.

All in all this was a great end to a perfect week and riding to places that I had always wanted to go. We met several very nice bikers on the trip at rest stops and restaurants. If you are every in the San Antonio, TX area go up to the Texas Hill Country for some great riding. It's always fun making memories and friends while out riding our Goldwing.

Robert & Joan Partigianoni
